INTRO

MangoApps provides a digital workspace platform that fosters company-wide employee communications & engagement, content management, work collaboration, and training & learning within any organization. Because every establishment is different, we believe in offering a customizable product that allows your unique company and its employees to reach their full potential. With our wide variety of widgets, your digital work hub is custom-built to meet the one-of-a-kind needs of your business and its employees. Use this Widget Guide to learn about your MangoApps domain's vast capabilities and find inspiration to create your brand's ideal digital workspace.

POSTS

Use the Posts widget to display essential communications made within your domain. As one of the most used features, the Posts widget can display company-wide or Team-specific Posts, keeping your employees up-to-date and informed with relevant information. Available in a variety of layouts and customizable to show either the most recent or the most viewed posts on top, the Posts widget is a versatile, highly functional widget perfect for your Company Page, Home, or Department spaces. Create a visually appealing domain by utilizing multiple Posts widgets, each displaying a different category of Post and view style.

Posts

Cableinc Community News - Nov 2022

Mid-August marked the start of the new Sony project! CableInc is providing custom wiring for Sony's newest line of LCD televisions. In addition. The LCD Sony project is coming along smoothly estimated completion is early January (originally it was mid-March), which means everyone is working super hard and issues have been minimal.

MUST READ

Update: Company Badges

Hello, all!

In an effort to increase security throughout CableInc offices and manufacturing facilities, new keycard + ID combo badges will be issued next month. Your new ID/keycards will be sent to your location automatically on October 17th.

By Post Creator

June 13, 2022 2:30 PM PST

Office Maintenance - Oct 3rd

Hello, CableInc Team!

Monday, October 3rd ALL CableInc offices will be closed for routine maintenance & cleaning. This will be a mandatory WFH day for all office employees (unless you've already requested to use PTO that day).

Thanks for your cooperation!

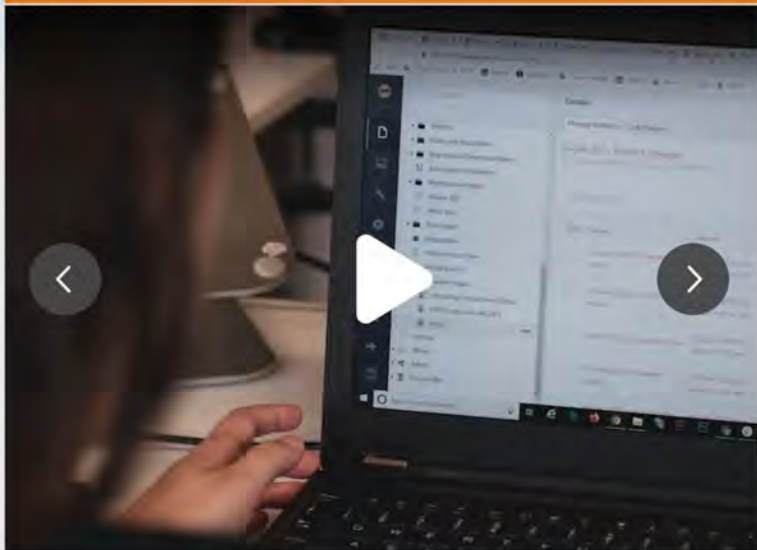

[View More](#)

LIST VIEW

The Posts list view displays your company or Team's most recent Posts, descending from newest to oldest or most to least viewed. You'll see the title and an excerpt from the Post on the left, with the Post's featured image on the right. Choose to present up to 99 of your company or Team's Posts for users to scroll through.

Posts - Slider View

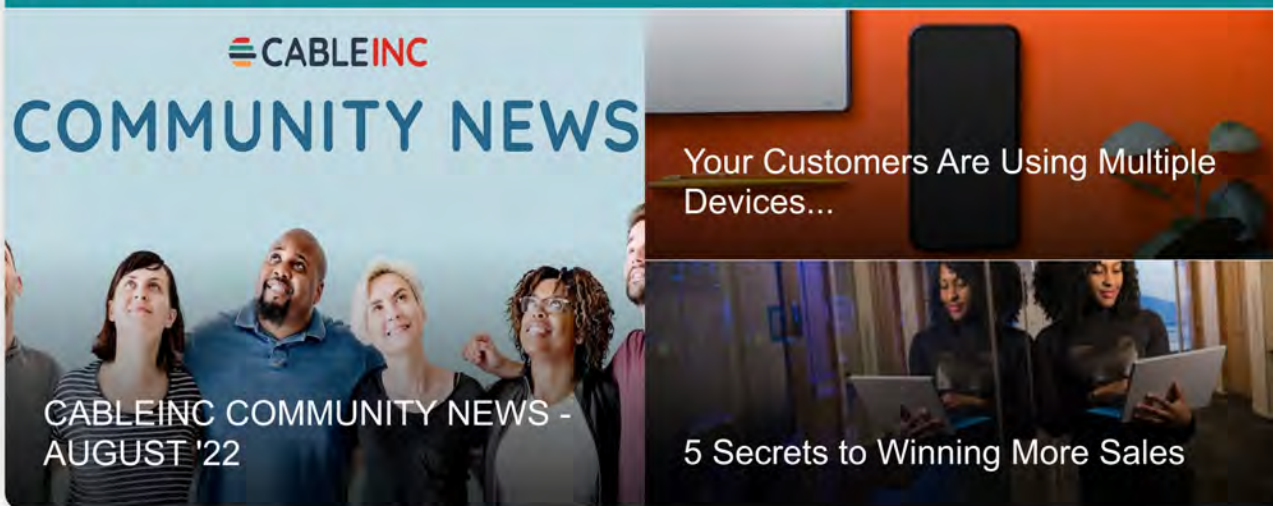

No More Emails & Unnecessary Meetings!

By Flora Devitto

SLIDER VIEW

Posts in the slider view display the featured image & title of a Post, automatically cycling through your preferred amount of items. Choose whether to hide or show the Post's author/Team and publishing date to share more information or keep things minimal. You can also opt to have the widget cycle through the Posts repeatedly or just once. This view creates a dynamic way for employees to consume important company or Team news.

Posts - Hero View

HERO VIEW

With the hero view, display up to 5 of the most recent or most viewed Posts within your company or Team. This view shows either the most recent or most viewed Post in a more significant portion on the left side of the widget, with the others less predominant on the right. The hero view looks most appealing when set to display three or more items.

Posts - Carousel View

MUST READ

Learn how to use trackers and forms

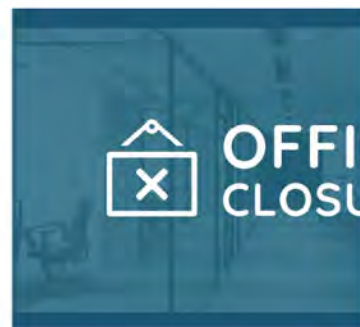

By Flora Devitto

Office Maintenance

By Flora Devitto

CAROUSEL VIEW

Similar to the slider view, the carousel view cyclically displays Posts, with the option of a visual border separating each. Choose the border's color to match your domain's branding, or opt not to use one. Depending on your preference, the carousel view will cycle through the posts repeatedly or just once.

SIDE BY SIDE VIEW

This view shows between 6 and 18 of your company or Team's Posts, listed in up to 3 columns. This view gives users a quick glimpse at multiple posts, allowing them to pick and choose which ones they want to engage with first. To create an attractive list of Posts in the side-by-side view, opt to display an even number of items.

MUST READ POSTS 🏠 🌐 🔄

Posts within your domain marked as “Must-Read” display in this widget from newest to oldest, ensuring important company news and office updates are easily acknowledged. Choose to have your Must-Read widget display Must-Read Posts published on your Company page, within your Teams, both, and more. The Must-Read Posts widget will cycle through the newest to oldest Posts, your choice of once or repeatedly.

ANNOUNCEMENTS 🏠 🌐 🔄

Prominently display Posts marked as “Announcements” to ensure all members of your domain readily see office updates, company events, and more. Choose to display Announcements posted within your Company page, Your Teams, specific Teams, a combination of domain locations, and more! Assure the right members of your organization are seeing relevant, impactful information at the right time.

PODCASTS

Display the Podcasts widget for convenient access to all voice enabled Posts within your domain. Implement Podcasts to increase the accessibility of your domain for visually impaired employees. Or, use them as a multi-tasking tool by listening to updates while you work.

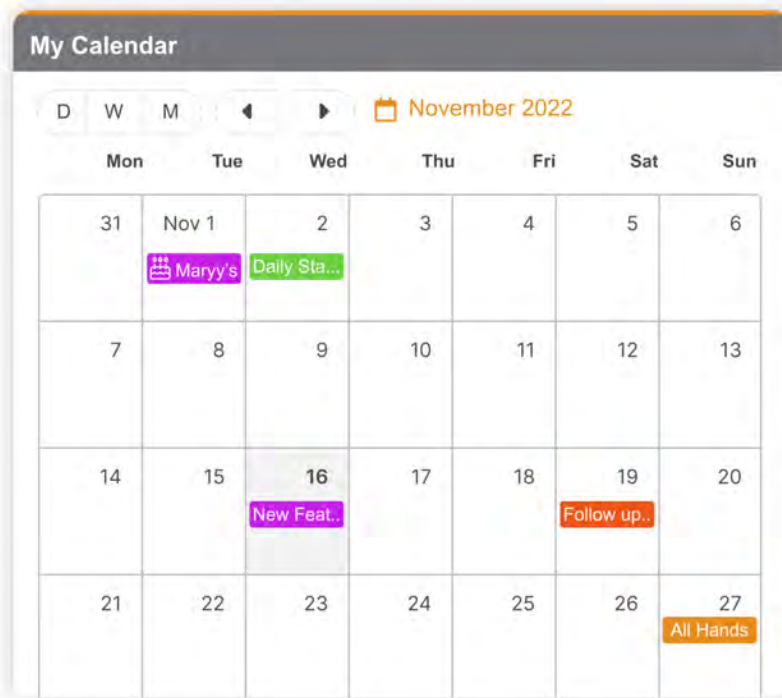

MY TEAMS CALENDAR 🏠 🌐 🔊

Use this widget to view due dates, milestones, and events relating to the Teams you're a part of. Choose to display your Teams Calendar in a monthly, weekly, or daily view.

MY CALENDAR 🏠 🌐

Display important dates with the My Calendar widget. Choose to have your calendar show personal Events and Reminders, Company Holidays, or Everything, including company-wide events and colleague birthdays. Even sync the My Calendar widget to your Outlook or Google Calendar.

Upcoming Birthdays

Aaron Ugo's birthday is on July 6th
[Say Happy Birthday](#)

Abey Klesil's birthday is on July 8th
[Say Happy Birthday](#)

Abdel Hernandez's birthday is on July 8th
[Say Happy Birthday](#)

Abigail Stanton's birthday is on July 10th
[Say Happy Birthday](#)

Abramo Roskilly's birthday is on August 3rd
[Say Happy Birthday](#)

UPCOMING BIRTHDAYS

Use the Upcoming Birthdays widget to display a list of users whose birthdays are on the horizon. Admins can set the number of users shown and base the list on how many days away each person's birthday is.

UPCOMING HOLIDAYS

Easily keep track of approaching office closures with the Upcoming Holidays widget. This widget displays a list of holidays your company observes as days off. Admins configure your company's list of holidays and can make different lists based on your organization's office locations.

Upcoming Holidays

BADGES  

The Badge system within MangoApps is a fun form of gamification that encourages participation on the platform. This widget displays the members of your network who have recently been awarded a Badge within your domain. Keep track of which employees engage with your company intranet most and how quickly it takes them to receive Badges. With one click, this widget lets you quickly leave a comment of recognition or kudos on someone's Badge achievement.

RECOGNITIONS   

Stay on top of congratulations with the Recognitions widget. Display individual or Team awardees to stay up to date with achievements and milestones within your organization. Even access the Recognition feature straight from this widget to give out your own awards. Display this widget within your domain to encourage sharing kudos and acknowledging each other's hard work.

Recognitions

Polls

Which day and time works best for our weekly Marketing Planning Meeting?

What type of celebration would you like for your work anniversary?

What would you prefer your work schedule to be?

POLLS

View all the Polls within your network, with the most recent on top to keep you up to date. Display this widget on your network's Home to provide employees quick access to your domain's Polls, ensuring every member of your network has a fair chance at having their vote counted.

SURVEYS

Increase employee engagement with the Surveys widget. This widget displays all the Surveys within your domain and what percentage of users have completed them. Encourage participation and ensure every employee's voice is heard by prominently displaying the Surveys widget within your network.

Surveys

Employee 360-degree Evaluation Nov 2021 (9 Questions) 0%

Tell us your views on Dashboard and... (9 Questions) 0%

Event Feedback Survey (9 Questions) 16%

Quizzes

Usability & Experience Quizz (9 Questions) 50%

Common Sense Questions (9 Questions) 0%

Guess the Historical Event (9 Questions) 16%

QUIZZES

Display a list of recent Quizzes made within your domain. Start or resume a Quiz from this widget anytime! The Quizzes widget also shows what percentage of network users have completed each Quiz, providing insights on employee engagement.

Ideas

IDEAS

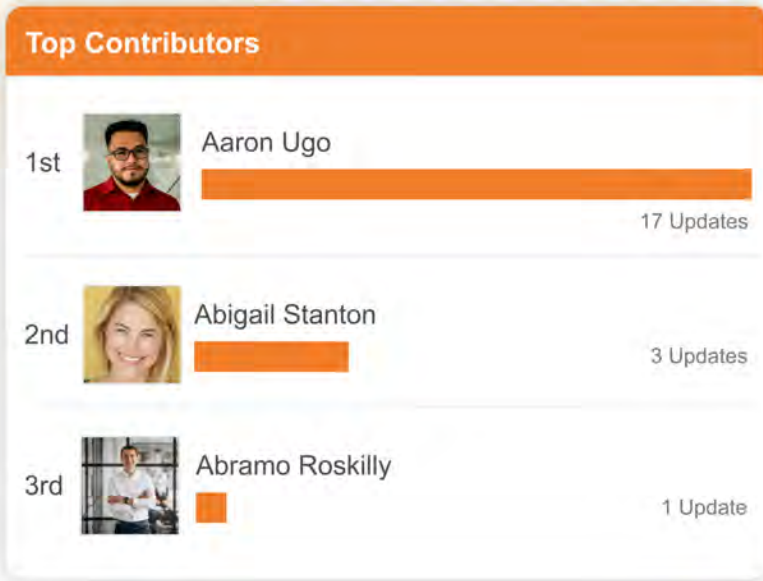

With the Ideas Module enabled, this widget gives a bird's eye view of the most recently submitted or updated Ideas. Peek at who is sharing Ideas, Ideas' statuses ("under consideration," "implemented," "deferred," etc.), and which Ideas are getting upvotes. You can also view the Ideas that received the most votes and comments.

IDEA CAMPAIGNS

If your Domain collects Ideas via Campaigns or initiatives, display this widget to quickly access both the recently active and closed Idea Campaigns. Newest Idea Campaigns show up at the top of the list to keep you up to date with your company's innovation efforts.

TOP CONTRIBUTORS

Display the top 5 users in your Department based on the number of updates they've shared. Use this information to gauge who's asking the most questions, sharing the most information, and utilizing your Department space overall.

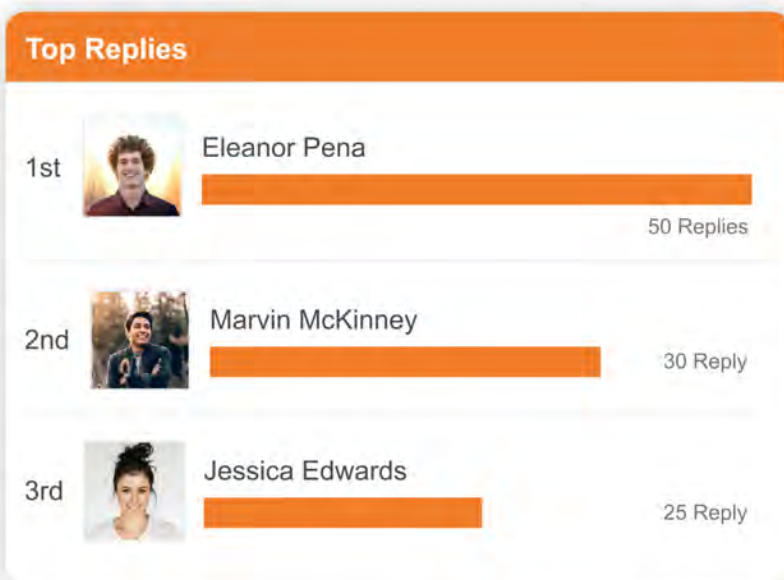

TOP MEMBERS

The Top Members widget highlights a list of users within your Department who have received the highest number of "likes" on their published updates, posts, and comments. Get a sense of whose content resonates most with the other members of your Department and nurture their communication skills.

TOP REPLIES

Present the top 5 users who provide replies within your Department. Find experts within your Department space by seeing who replies to the most questions, providing helpful answers and problem-solving ideas.

People

PEOPLE

With the People widget, display a list of your colleagues for quick communication and information sharing. This list can be customized to show the people of your choice or those who have recently joined the network, received MangoApps awards, have upcoming work anniversaries, are domain admins, and more. Use the People widget to easily contact your most talked-to co-workers or keep a list of experts handy for when you have questions.

COLLEAGUES I FOLLOW

Easily collaborate with relevant colleagues by displaying the Colleagues I Follow widget on your Home. Click on the user's icon to view their profile, where you'll find their org chart, company email address, hire date, and more. You can even compose a new message to this user via their profile for quick communication.

STOCK   

View real-time intraday stock market data with the Stock widget. Pick from a collection of exchanges to display the stock ticker symbol relevant to your company or interests. Ideal for publicly traded companies, display up-to-date stock market info to keep employees informed.

WEATHER   

Conveniently check real-time weather details before walking to your favorite lunch spot or commuting home for the evening. The Weather widget is configured by office location zipcodes inputted by your domain admin, ensuring every person within your organization sees accurate weather updates for their physical location.

Weather

Seattle
Scattered Clouds & Thunderstorm 

52.8°F
Temp Min: **48.2°F** Temp Max: **64.4°F**

TIMER   

Set up a real-time countdown or stopwatch-style timer with this widget. Including the option to display days, hours, minutes, and/or seconds, the Timer widget can be used for several cases - count down to an important company event or product launch, keep a tally of accident-free days in your organization, and more!

Email Marketing

ACTION CENTER

Stay on top of pending work via the Action Center. With a visual look at both your and your direct reports assigned duties, never question outstanding tasks again. Admins can customize the Action Center to display varying degrees of urgency with easy-to-follow, color coordinated rings to represent duties that require action asap, are due 30/60/90 days out, etc. Even add custom categories to fit the unique needs of your employees!

DLP POLICY ALERTS

Improve data loss prevention efforts with the DLP Policy Alert widget. Listing any content within your domain that contains personally identifiable information (PII), the DLP Policy Alert widget is essential for domain & compliance admins. This widget tracks any mention of PII keywords within your domain that your admins have set. Admins can use this widget to determine if/when sensitive information has been publicly shared in your network and take appropriate action.

DLP Policy Alerts

Date	Policy Name	Item Title	Matched Pattern
10/18/2022 12:14 PM PDT	Email Address	Case study.pdf	Custom
9/18/2022 12:14 PM PDT	All PII Policies	receipt.png	Credit Card

	Jacob Mathew has flagged the following content Graphic Violence	Delete Restore

PENDING APPROVALS

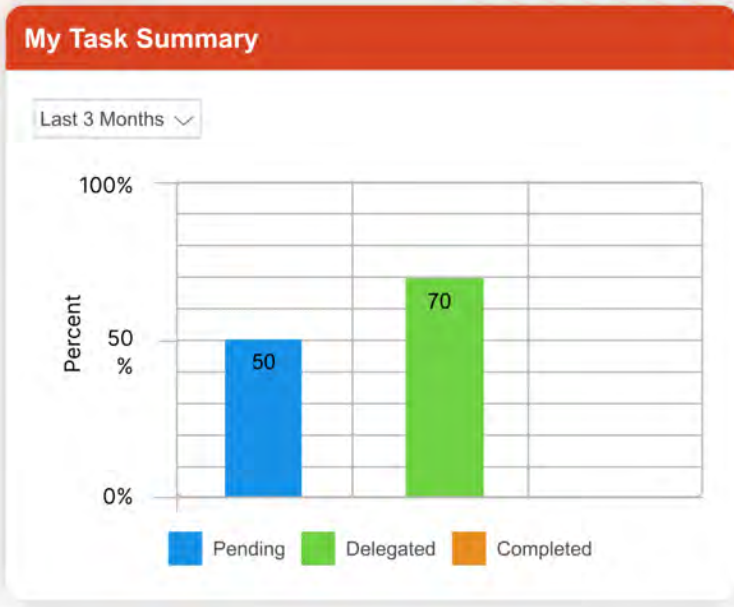

Keep an eye on your Pending Approvals, this widget will list requests that require your approval (depending on your role within your domain), such as user invites, Team member additions, and flagged content. Quickly access requested approvals to maintain efficient workflows and keep inappropriate or irrelevant content from being shared throughout your network.

TASKS

The Tasks widget provides easy access to your pending, delegated, and completed Tasks. Update the Task's status, add notes, and more to effortlessly keep track of your to-dos. This widget displays Tasks across all your projects, making it easy to pick and choose which ones to focus on and when. For managers, view the Tasks you've delegated to keep an eye on productivity and potential roadblocks your employees are encountering.

MY TASK SUMMARY 🏠 🌐 🔄

Get a visual overview of your completed, pending, and delegated Tasks. With the My Task Summary widget, you'll see a bar graph depicting the percentages of each category's Tasks for a quick status analysis. Choose to have your widget display Tasks from the current week, the current month, the last 3 or 6 months, or the entire year. Simply click on the bar to see all the Tasks in one category.

MY PROJECT TASKS SUMMARY 🏠 🌐

The My Project Tasks Summary widget provides a quick synopsis of your project's execution. By seeing the project's health, deadline, and owner, you'll quickly know what progress has been made and whether or not you're on the right track. A color-coded list of how many overdue, pending, and completed Tasks the project has makes it easy to see the amount of work needed. You can cycle through all the projects you are a part of.

Payroll Changes: Quickbooks to ADP

CableInc is moving forward with ADP as our new payroll platform. Our contract with QuickBooks will expire on November 30th at 11:59 pm EST.

As CableInc continues to grow, we've found that QuickBooks is no longer a reliable or efficient source when it comes to payroll.

Why ADP?

- More flexible plans
- More HR Functions
- Over 50 software integrations

Will the ADP software be compatible with our current computer systems?

Yes. Our current computer systems have been updated and the ADP software will be the most recent version.

RICH TEXT BOX W/ MEDIA 🏠 🌐 🔄

Add media to your Rich Text widgets to enhance them with a visual component. From company logos to employee headshots, the Rich Text Box w/ Media widget adds flair to an otherwise text-heavy page. In addition to formatted text and hyperlinks, include videos and images within your Rich Text Box w/ Media widgets to share instructional videos, behind the scenes content from your organization's locations, messages from your CEO, and more.

Rich Text Box w/ Media

No More Emails & Unnecessary Meetings!

Today I'm asking all Cablinc employees to join me in a campaign to:

1. Eliminate email clutter
2. Reduce internal meetings

From today forward, there will be no more internal emails! Our new social intranet (MangoApps) is a much more efficient method for communicating internally and with key partners, customers, and suppliers. From now on....if you receive an email from an internal employee, respond via our social intranet. Together we can eliminate the email clutter. Most internal team meetings consist of a manager updating

Basic Text Box

As CableInc continues to grow, we've found that QuickBooks is no longer a reliable or efficient source when it comes to payroll. ADP promises less software bugs, more transparent communication, and an easy to adapt program. As a company, we must ensure employees access to their hard-earned paychecks, PTO hours, and individual tax information. Upon our research, we've found that ADP will be able to deliver these needs. We look forward to working with ADP and providing a stable solution to payroll.

BASIC TEXT BOX

Use this widget to add simple copy throughout your domain. The Basic Text Box is best for blurbs of copy that do not require links, font color/size variations, headings, or bulleted lists.

RICH TEXT BOX

Use this widget to display informative text and links - change the font size & color, add hyperlinks, and adjust the formatting. Plus, edit the HTML & CSS code directly. The Rich Text Box widget is broad in functionality and can be implemented for various use cases, such as About Us sections, onboarding instructions, health & safety guidelines, and more. Rich Text Boxes are easy to edit and highly versatile, making them one of the most commonly used widgets within a MangoApps domain.

CABLEINC COMMUNITY NEWS - AUGUST '22

Current Projects

Mid-August marked the start of the new Sony project! CableInc is providing custom wiring for Sony's newest line of LCD televisions. In addition, CableInc's current contract with Siemens is nearing its end, although we are both hoping to renew another 3-year contract to keep working together! Siemens is one of the largest engineering companies in Europe - our Munich office & Berlin facility have worked closely with them for over 10 years so far.

www.cableinc.com

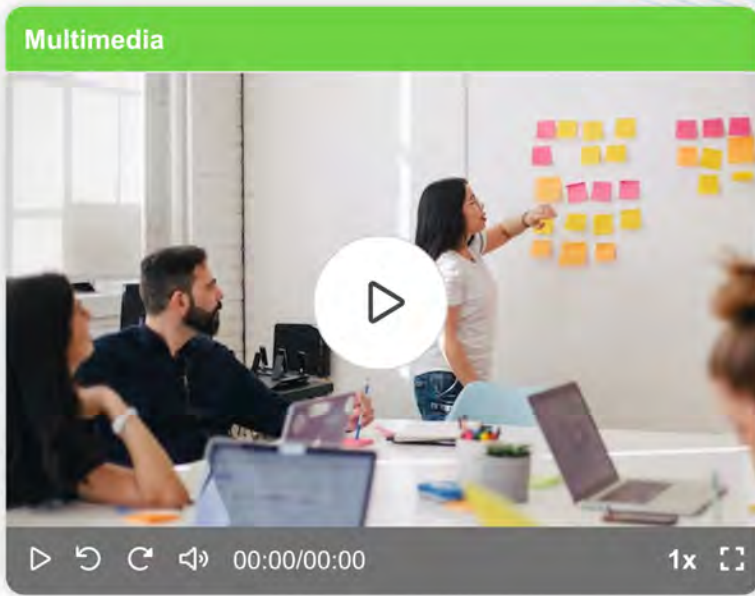

Achievements & Goals

Boeing's request for 400,000 thermocouple wires was finally met! It was a long, tough job, but we managed to complete within the original deadline - great job, everyone!

What's New with CableInc Crews

It's Halloween! All of our sales offices & manufacturing facilities are holding costume contests today - be sure to

MULTIMEDIA 🏠 🌐 🔄

Add photos or videos to your environment with the MultiMedia widget. Perfect for displaying videos or creating images that act as links, the MultiMedia widget allows you to create visually appealing pages throughout your domain. Use this widget to present welcome videos, behind-the-scenes footage, fun photos of your employees, and more.

SLIDER 🏠 🌐 🔄

Create a compelling media archive out of images & text with the Slider widget. This widget will automatically scroll through the content added repeatedly or for one complete cycle. Use the Slider widget to display images from company events, videos from conferences, new products, and more. Each of the Slider widget slides can also contain a URL to take the user to a relevant resource, post, page, etc.

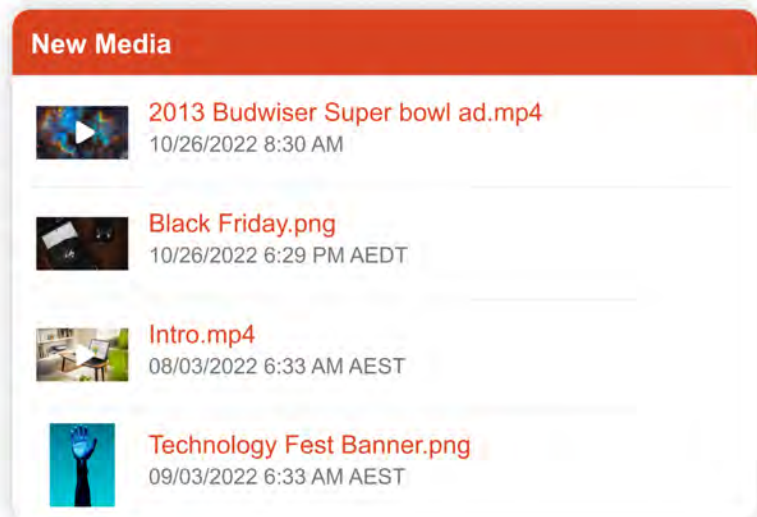

MEDIA CENTER

The Media Center widget is a cyclical display of a playlist containing images, videos, presentations, and audio files from your domain. You can create this playlist using multiple filters, including categories, hashtags, media types, etc. Your domain Admins can set what files the Media Center displays via the Media Center module.

NEW MEDIA

Similar to the Media Center, this widget lists (rather than cycles through) all the images, videos, and audio files posted in your network. The New Media widget displays the newest uploads on top, ensuring any member of your domain can get a glimpse of new media assets such as marketing materials, vlogs, and more.

TABLE/FORM/CHART   

Embed a Table, Form, or Chart on your Home, Company, or Team page with this widget. Conveniently view analytics, fill out applications, and add new entries. The Table/Form/Chart widget is perfect for openly displaying commonly used Forms and Tables that need consistent updating. In Chart view, your Table's information becomes easily viewable in color-coded graphs.

My Enterprise Apps

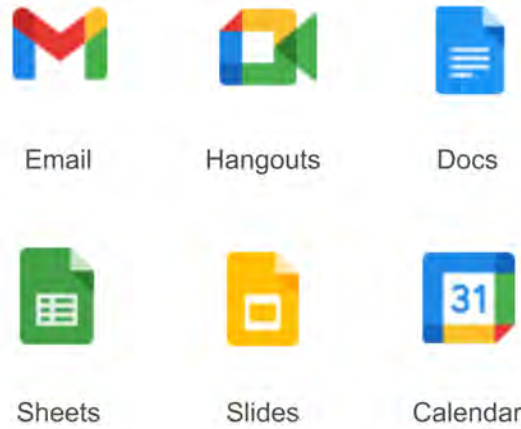

MY ENTERPRISE APPS   

The My Enterprise App widget conveniently displays the common apps used within your company. Set up via SSO, this widget allows users to jump from their MangoApps domain to other websites & apps that your employees need to do their jobs. Customize your My Enterprise Apps widget to include any sites or tools commonly used within your organization.

GSUITE APPS   

Quickly access your company's commonly used GSuite Apps with this SSO-based widget. Display links to Google Mail, Drive, Hangouts, Docs, Calendar, Photos, Contacts, Docs, and more!

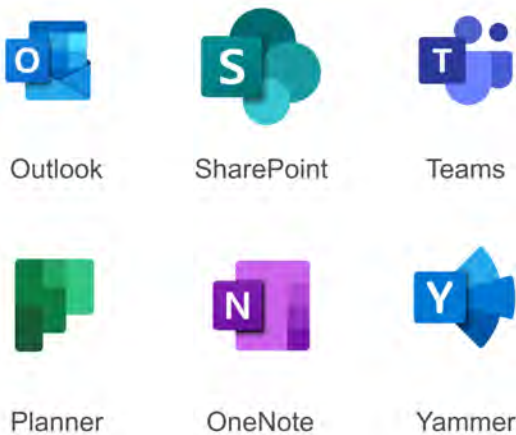

Gsuite Apps

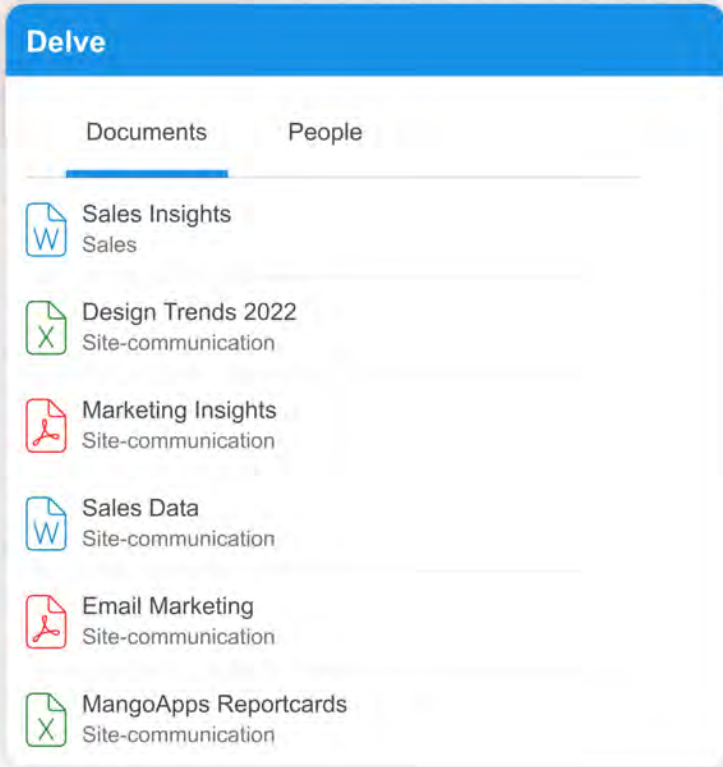

OFFICE 365   

This widget displays a grid of all the office 365 apps on your Mangoapps Home. You can choose the Office 365 shortcuts you want the widget to access, including Outlook, SharePoint, Teams, Planner, Dynamics 365, Calendar, OneDrive, OneNote, Yammer, Tasks, Stream, Word, Excel, and PowerPoint.

Office 365

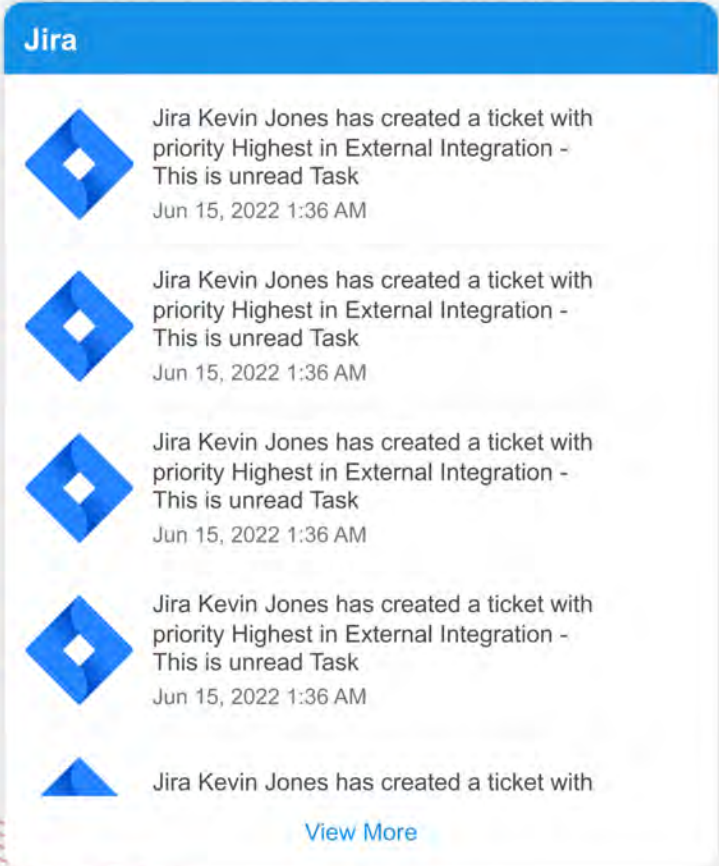

DELVE   

Add the Delve widget to your Home if you use Office 365. This widget gives you access to the most relevant trending topics and lets you view your colleagues' active 365 documents.

JIRA   

If your organization uses Jira for internal work processes, enable the Jira widget on your MangoApps Home to sync issues from Jira projects to MangoApps. Your Jira notifications will display in a list view from newest to oldest.

IFRAME

The iFrame widget allows you to embed content from an external source onto pages within your MangoApps domain. Use this widget to display your company stock chart or other web services offering iFrame embed code.

MAILCHIMP

Display the MailChimp widget on your MangoApps Home if your organization uses MailChimp for managing contacts, sending emails, and tracking email campaigns. With this widget, you'll see your MailChimp events, subscribes & unsubscribes, profile updates, email address changes, cleaned emails, and campaign sending statuses.

EXPENSABLE APPROVALS

The ExensAble Approvals widget connects with your expense management system to provide you with a summary of your pending approvals. You can also jump to your latest requests and accompanying documents from this widget to take action.

AIRBRAKE

If you or your technical team use Airbrake, an error and performance monitoring tool for your server infrastructure, you can access your Airbrake notifications without leaving your MangoApps home.

BEANSTALK

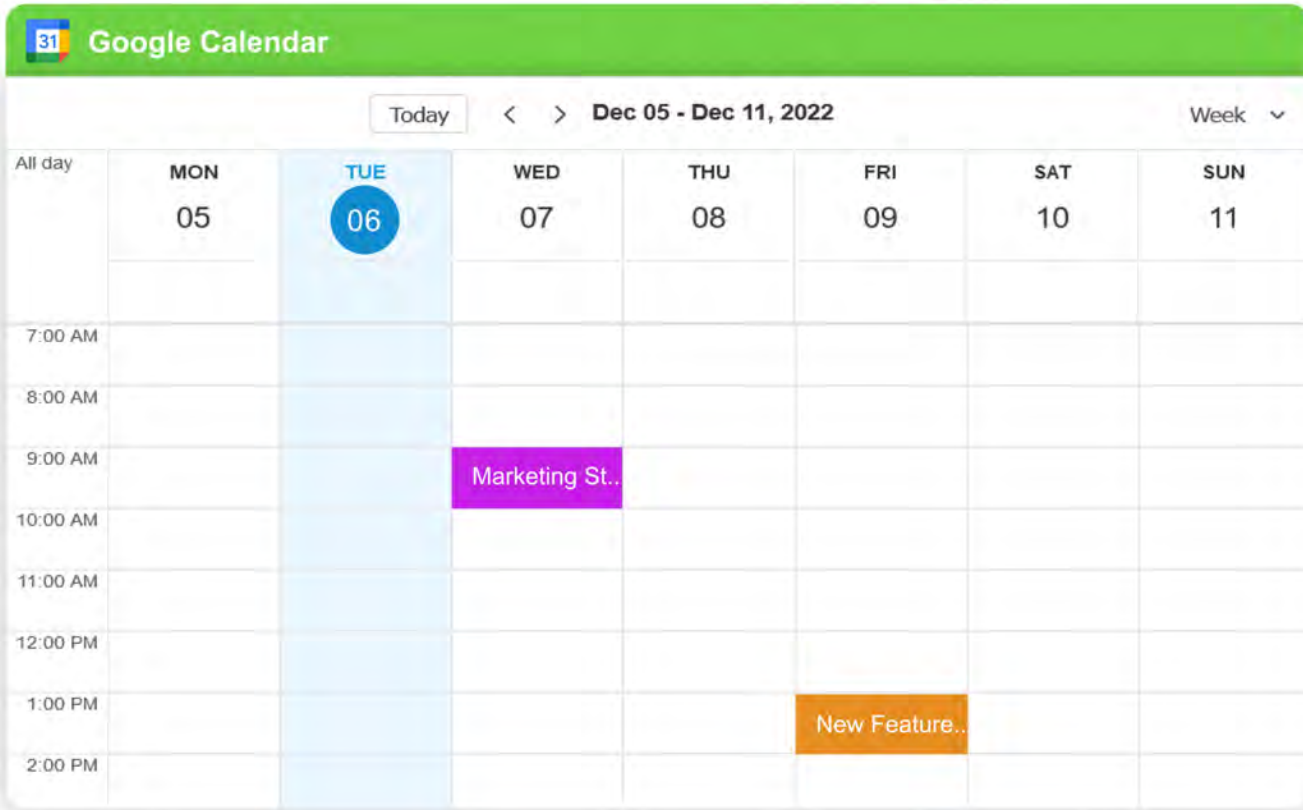

The Beanstalk widget directly brings all the latest code check-ins, code reviews, and deployment activity notifications to your MangoApps home if adopting the online code-hosting service.

GITHUB

GitHub is an online code hosting, deployment, and issue-tracking service. If your team uses Github, add this integration widget to your MangoApps Home to stay updated on all your GitHub environment's recent activities.

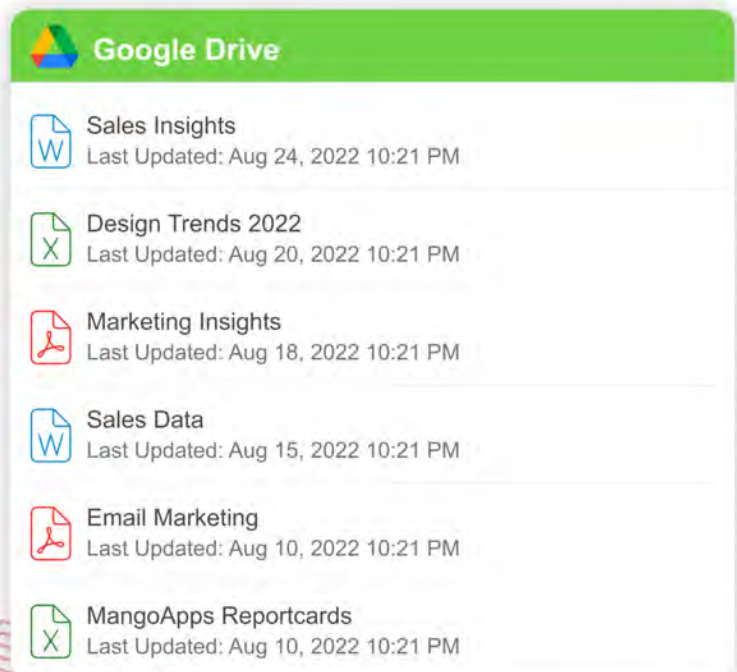

GOOGLE CALENDAR   

Use this widget to access events scheduled outside of your MangoApps domain. Configure the Google Calendar widget to display day, week, or monthly views.

GOOGLE DRIVE   

This widget gives you access to all your Google Drive files and folders straight from MangoApps. Configure this widget to display multiple Google Drive folders or files within a specific folder.

OUTLOOK CALENDAR

Use this widget to access your Outlook Calendar events scheduled outside your MangoApps domain. Configure the Outlook Calendar widget to display your preferred view: daily, weekly, or monthly.

OUTLOOK MAIL

If you use Microsoft Outlook for your email, add this widget to access it without leaving MangoApps. Navigate to your Drafts and Sent email folders from this widget, too. Clicking on an email within the widget will open it in a new tab.

OUTLOOK TASKS

This widget lets you view your Outlook Tasks from your MangoApps Home. From this widget, add new tasks and mark existing tasks as complete. Sorting and searching are also supported so you can quickly find the task you're working on.

MS STREAM

Watch your Microsoft Stream videos directly on your MangoApps Home or Department pages with this widget. A single video or an entire channel can be embedded on a page using the specific embed code from your Microsoft Stream app.

MS TEAMS

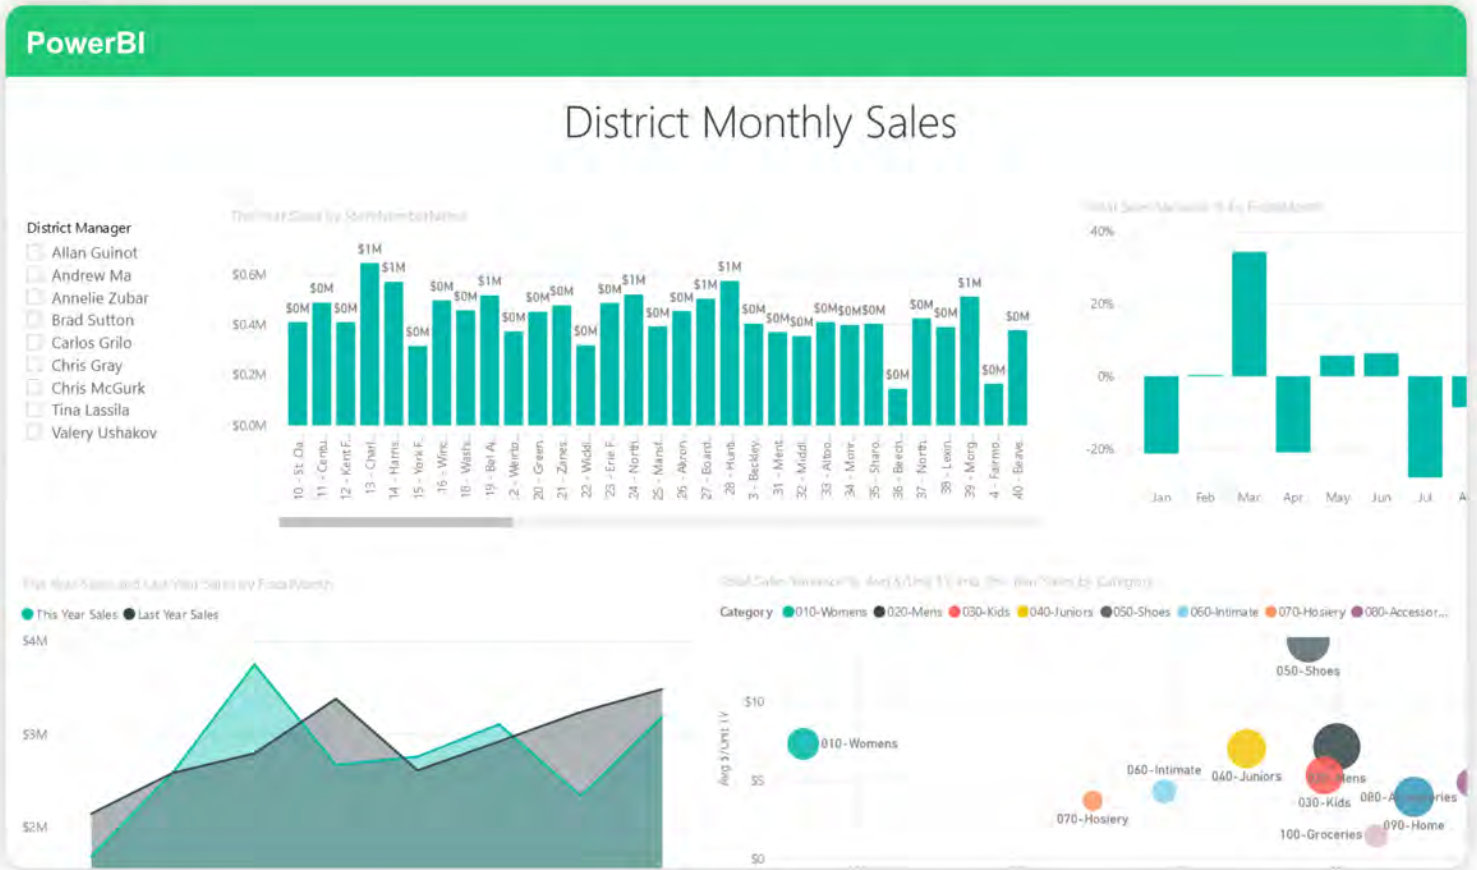

Access a list of your Microsoft Teams groups and their respective channels without leaving MangoApps. Settings in this widget allow you to sort your list and easily search to find the team or channel you need. Clicking on an item in your list will automatically open the Microsoft Teams app and the corresponding channel.

ONE DRIVE

Access and search through your Microsoft One Drive files right from your MangoApps Home by enabling this widget. Or, add this widget to a Department page and configure it to display One Drive relevant files.

POWERBI 🏠 🌐 🔄

Power BI provides a way to display interactive visualizations with self-service business intelligence capabilities. Using PowerBI, users can create reports and dashboards without having to depend on IT staff, database administrators, or graphic designers. MangoApps integration allows you to display any PowerBI-generated report on a Team or Department page or your MangoApps Home. Users can only see reports they're authorized to view.

TWITTER EMBED   

Use the Twitter embed widget to show tweets from your company's Twitter account or another account of interest. This widget will also display photos and videos that are uploaded to the Twitter account of your choosing. With "heart" and "reply" buttons right in the widget, it's easy for employees to engage with your company's Twitter account and share its content on their own feeds.

We're down to the last few days to enter our Going Places contest! Visit <http://sparklight.com/contest> by Aug. 2 to find out how you can enter to win \$3,000 for fall tuition! [#GoingPlaces](#) [#SparklightCares](#)

 **Cable ONE**
@Cableone, Jul 30, 2022

Congratulations to Phoebe, 17 of Clarkdale, AZ, on being selected as one of six winners in our Creative Arts Contest! "This picture is of me listening to Spotify, using Sparklight internet, while I draw," Phoebe writes. Great work, Phoebe!

NEW RELIC

New Relic is a web and mobile application performance monitoring service that lets your team audit application health and availability. This integration widget allows you to receive updates on your MangoApps Home or within a Team for the following New Relic notifications: alerts from applications, key transactions, and servers.

ZENDESK

If your organization uses Zendesk for customer service & support, add this widget to see all your Zendesk notifications without leaving your MangoApps domain. Zendesk notifications are listed with the most recent on top, ensuring you stay up to date.

SHAREPOINT

Access your SharePoint sites in just one click using this widget. You can showcase your sites on your MangoApps Company Pages, Team Pages, News Feed widgets, or Home.

RSS FEED

MangoApps supports subscriptions to RSS feeds. The RSS widget is a great place to house all your content while keeping coworkers up-to-date. MangoApps' RSS reader app allows users to quickly subscribe to whatever they are interested in, then MangoApps expertly renders the feed and displays the requested.

SLACK

If your organization uses Slack, enable this widget on your MangoApps Home to display real-time Slack messages with the ability to respond straight from MangoApps. Or, add this widget to a Team Page and configure it to display relevant updates from a specific Slack channel.

PINGDOM

Pingdom is a website monitoring service that tracks websites' uptimes, downtimes, and performances. This Pingdom widget allows you to receive updates into your Home or a MangoApps team when one of your configured Pingdom alert policies is triggered.

OUR TEAM IS HERE TO HELP!

We hope this guide has shed some light on MangoApps' wide variety of widgets and has inspired you to create your company's ideal digital work hub.

Please reach out to us with any questions or ideas you may have - our customer success team is here to help implement any widgets that interest you.

We're excited to work together in making your MangoApps domain the best it can be!
